DESCRIPTION

A person who applies for a position has to meet the conditions specified in Art. 113 of the Act of July 20, 2018 - Law on Higher Education and Science (consolidated text, Journal of Laws of 2020, item 85).

Applicant should:

- hold a doctoral degree (or have an open doctoral dissertation and the prospect of defending a doctorate in the next year) in a discipline related to the applications of computer science in management sciences or in technical sciences,
- have a predilection for research and teaching, be self-disciplined, creative and independent at work,
- have experience in conducting scientific research in the field of applied computer science (informatics) and data science in the area of management and quality sciences or technical sciences, documented by publications on ongoing scientific and research work,
- have professional qualifications at the academic level to conduct courses in the field of applying databases techniques, Data Mining and Text Mining techniques, algorithmics and programming,
- have command of the English language at the level that enables studying scientific literature and elaborating scientific articles,
- be fluent in the Polish language.

The candidate should be prepared to conduct lectures and laboratory classes in Polish in the following fields:

- application of information technology, including Data Mining, in management and technical sciences,
- management and exploration of structured and unstructured data,
- web programming and high-level programming languages, Python or R programming language in particular.

Documents required:

- an application for employment addressed to the Rector of Kielce University of Technology,
- a personal questionnaire,
- a CV together with a summary of scientific achievements and possible teaching and organizational accomplishments related to future work at the university,
- a certified copy of a master's degree diploma,
- a certified copy of the doctor's degree diploma or a certificate of the candidate's open doctoral dissertation,
- a declaration that Kielce University of Technology will be the candidate's primary place of work within the meaning of the Act on Higher Education.

The documents should be sent to the following address:

Politechnika Świętokrzyska
Dziekanat Wydziału Zarządzania i Modelowania Komputerowego
Al. Tysiąclecia Państwa Polskiego 7, 25-314 Kielce

The candidate selection process will be completed within no later than four months of the date of this advertisement. All supporting documents submitted for a job application will be returned to unsuccessful applicants.

The Advertiser reserves the right to cancel the competition at any stage without giving any reason.
